ELWELL NEWS

If you enjoy seeing a good home talent play, you should not miss the one to be given, May 20th, entitled "The Girls Society Play." People who attended a former local production here were satisfied that they received their money's worth in entertainment and this play will not prove to be an exception. There will be specialties between acts as well as a talk by Mr. Carl Washburn of Alma, on "Progressiveness of Our Village." The play will be followed by a concert, one of the numbers being given by the boy scouts. It might be well to state that the play is to be given for the purpose of raising funds to build a side-walk in front of the Maccabee hall. One of the features of the evening is a solo by Mr. Vern Wright of Alma. Everyone who has ever heard him knows that this alone is worth the price.

On Thursday evening of last week, the Odd Fellows of this place, entertained brothers from Alma, Sumner and Riverdale. The Alma and Riverdale exemplified the work in the first and second degrees to a class of nine candidates, after which supper was served in the spacious dining hall by the Rebekah ladies, when plates were laid for about 175 who did ample justice to the good things set before them. Reliability

OUR absolute faith in the Maxwell car is due to two reasons:

First, we have known that the Maxwell Company uses nothing in the entire car but the very best that money can buy. We have known that the steel is scientifically heat treated, that the car is built under the supervision of able engineers, that every car is rigidly tested many times before it leaves the factory.

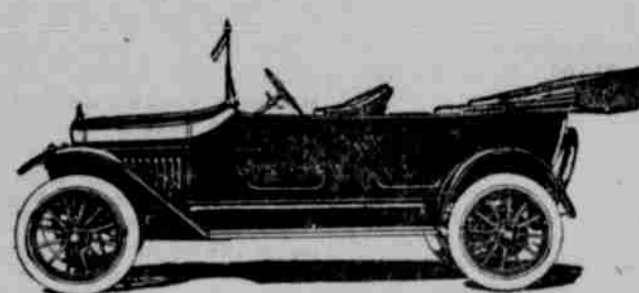

Second, we have known that the big and well established company behind the car is building for the future, that they value a satisfied owner above everything else.

Now that the Maxwell has set the World's Motor Non-Stop Mileage Record, by travelling continuously for 44 days and nights—averaging 500 miles per day—you will understand the benefits you personally may derive from the Maxwell policy. Did you ever hear of any car going 22,000 miles without once stopping the engine, without any repairs or readjustments, with only one gallon of gasoline to every 22 miles?

There is no reason why you shouldn't have a reliable, serviceable and economical Maxwell car. The first cost is low, the operating cost is low and our pay-as-you-ride plan makes the purchase easy for everyone.

Let us see you about this now, before our allotment is exhausted.
